Hello to all ONA members. I have been active with ONA and representing nurse members since 2001. I have sat at the tables with ONA leaders, representing your voices across different workplaces. No idea is a bad idea, no ask is too small, and I will always bring forward nurses' needs and wants confidentially. I am down to earth, caring, and compassionate, with a true love for people, especially nurses. Our work deserves appreciation, our livelihood deserves fair compensation, and our workplaces must be safe.
